Title 18 U.S.C. Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

GENERAL INSTRUCTIONS

This form shall be used for applications for well work, road, site and facilities construction and other miscellaneous activities performed on Federally leased lands which are related to operations performed under an approved Plan of Operation.

SPECIFIC INSTRUCTIONS

Item 1b: Show the current status for existing wells: I=injecting, F=flowing, P=pumping, HE=heat exchange, SI=shut-in, WS=water supply, OB=observation, O=other (*explain*).

Item 15: The latest well conditions (hole size, casing, cement, perforations, producing and injecting zones, etc.) along with all proposed additions/changes **must** be shown. When completing this section list existing well program first, followed by the proposed program, and separate by a sufficient space to clearly distinguish the two programs. Current well conditions may be either listed in this section or may be shown by attaching a copy of the latest completion report on the subject well.

Item 16: Attach all pertinent engineering plans and specifications

Completed Operations: Thirty days after completion of all operations other than construction activities, approved under this permit, a completion report must be submitted in duplicate, to the authorized officer. The completion report shall include a copy of the approved Geothermal Sundry Notice with an attached report detailing all important activities performed, and the completion and abandonment procedures undertaken. Copies of all records of the operations shall accompany the report if not previously submitted.

NOTICE

The Paperwork Reduction Act of 1995 requires us to inform you that:

We are collecting this information to evaluate your proposed and/or completed subsequent well operations on Federal geothermal leases.

We use this information to report subsequent operations once work is completed, and, when you request it, to approve subsequent operations.

Response to this request is mandatory for the specific types of activities specified in the geothermal operations regulations at 43 CFR 3260.

BLM would like you to know that you do not have to respond to this or any other Federal agency-sponsored information collection unless it displays a currently valid OMB control number.
